Professional Summary

Linux System Administrator with over 2 years of hands-on experience managing, maintaining, troubleshooting, and optimizing Linux servers in production environments. Experienced in server migrations, backup and recovery, shell scripting, automation, performance tuning, and infrastructure management across WHM/cPanel and Plesk hosting platforms. Additionally, experienced as a Junior DevOps Engineer, supporting application deployments and infrastructure automation using Git, Docker, Jenkins, Ansible, Terraform, and Kubernetes. Hands-on experience with AWS cloud services, CI/CD pipelines, Infrastructure as Code (IaC), and containerized application deployments. Skilled in monitoring and observability using Prometheus, Grafana, Zabbix, UptimeRobot, and CloudWatch to ensure high availability, proactive incident detection, and system reliability. Strong understanding of Linux administration, web servers (Apache and Nginx), networking, SSL management, DNS, and troubleshooting complex production environments. Passionate about automation, continuous learning, and improving infrastructure performance through DevOps best practices.

Skills

- Linux & Server Administration: Linux system management, Server Management and Maintenance, System Updates and Upgrades, Software Installation and Configuration, Remote Access Setup and Support, User Support and Technical Assistance, IT Support and Troubleshooting, Server-server Migrations, Mail migration, Cpanel- Cpanel migration, plesk-plesk migration, website migration
- Hosting & Web Stack: WHM/cPanel, Plesk, LAMP, LEMP, Node.js, SSL Certificate Management, DNS Management.
- DevOps & Automation: Git, Jenkins, CI/CD Pipeline, Docker, Kubernetes, ECS, Ansible, Terraform, Python, Bash, Scripting and Automation.
- Monitoring & Observability: Prometheus, Grafana, Zabbix, UptimeRobot, Uptime Kuma, Monitoring Tools.
- Cloud services :- AWS, Contabo, Cloudflare, GoDaddy.
- Cloud & Infrastructure: AWS - EC2, Amplify, AppSync, API Gateway, CloudFront, CloudWatch, Elastic Beanstalk, EventBridge, IAM, KMS, STS, Lambda, Load Balancer, Auto Scaling, RDS, RDS Read Replica, ElastiCache, S3, SES, SNS, SQS, VPC, Route 53, DynamoDB.
- Operations & Support: Backup and Recovery, Database Maintenance and Management, Reporting and Documentation, Problem-Solving, Resource Planning and Cost Management, Workflow Optimization.

Experience

Clado Solutions — Junior DevOps (Intern) | Feb 2026 – Present | Ernakulam

- Worked with Jenkins and CI/CD pipelines for deployment automation and delivery workflows.
- Worked with Docker, Kubernetes, ECS, Terraform, Ansible, Python, and Git in DevOps support and infrastructure operations.
- Worked with monitoring and observability tools including Prometheus, Grafana, and CloudWatch to improve visibility and reliability.
- Managed AWS services including EC2, Amplify, AppSync, API Gateway, CloudFront, Elastic Beanstalk, EventBridge, IAM, KMS, STS, Lambda, Load Balancer, Auto Scaling, RDS, RDS Read Replica, ElastiCache, S3, SES, SNS, SQS, VPC, Route 53, and DynamoDB.

Spotfixcrew — Linux System and Server Administrator & Junior DevOps | Mar 2024 –Present

- Optimized Linux server configurations and implemented efficient backup processes to enhance system performance.
- Deployed monitoring tools for real-time system performance analysis, enabling proactive issue identification.
- Provided direct support to end-users experiencing Linux-based system or application issues, ensuring swift resolutions.
- Maintained Linux servers, achieving and ensuring 99.9% uptime and reliability.
- Automated routine administrative tasks, resulting in a weekly saving of 20 hours.
- Spearheaded successful server, mail, database, and website migrations, minimizing downtime and data loss.
- Collaborated with cross-functional teams to optimize workflows, leading to increased overall productivity.
- Achieved cost savings through strategic resource management and planning.

Clado Solutions — Linux System & Server Administrator (Intern) | Mar 2023 – Jun 2023

- Acquired practical experience in a live environment supporting Linux systems and server infrastructure.
- Assisted with routine System and Server administration tasks and support activities.
- Developed foundational skills in Linux system administration.

Education

- Clado Solutions — DevOps Engineering | Feb 2026 – present (working on mini projects) | Ernakulam
- Clado Solutions — Linux system administration | Mar 2023 – Jun 2023 | Ernakulam
- G-TEC Computer Education — Keletron DCA | 2022 | Cherthala, Alappuzha
- Mangalam College of Arts and Science — Bachelor of Computer Applications | 2016 | Eattumanoor
- Vaduthala Jama-ath Higher Secondary School — 12th | 2011 | Vaduthala, Cherthala, Alappuzha
- St Therasas High School — 10th | 2008 | Manappuram, Cherthala, Alappuzha

Certifications

- Linux Administration
- DevOps Engineering
